##### *Professionalism*

This course is a preparation for employment in a studio. Therefore we expect you to act in class as you would in the workplace. While studios are often informal, they still require everyone to be respectful of others. Furthermore, attendance both for the class and when your team meets are critical. How your teammates view the quality and quantity of your work, as well as your team skills are important. Finally, how much work you produced, as recorded in JIRA, will be considered.
